### THE GREAT POSTAL FRAUDS AN EXCELLENT OPPORTUNITY TO

MAKE AN TXAMPLE. Dres Postmuster-General Jewell Desire to

The injunction upon subordinates to use the precise forms prescribed by the Postmaster-General, unon which so much stress was laid by the Supreme Court, has been violated by Edmunds in the muniation of the printed form of certificate issued by the department. A HINT FOR MR. JEWELL.

If, as it appears, he would be liable on his bond for falsely certifying, what would be the measure of his liability? Section 108 of the act of July 2, 1836, throws light on this question. It pre-

If the department fails to recover in an action of dent against a failing bidder and his guranters, it is the fault of the Postmaster who certified to the responsibility of such guaranters. If he certified ignorantly or with knowledge that they were not sufficient; and he should be held hable in the amount which the Government would be entitled to recover from them, for the bid would be entitled to recover from them, for the bid would not have been accepted, and the Government would not as a consequence have suffered bes, but for his certificate.

At all events the luwful penalty for Edmunds's offence is removal from office. Creswell failed to perform his duty in this regard. Are we to itself a something better from Mr. Jewell?

## THE BAPTISTS' TROUBLES.

The Rev. J. Hyatt Smith's Sermon in the Disfellowshipped Church.
The fact that the Long Island Baptist Association had dropped from membership the Lee Avenue right hand of fellowship from the church at Port Jefferson, coupled with the withdrawal of Gethsemane Baptist Church—in which the meetings were held from membership on Friday, drew large congregations to Lee Avenue Baotis Church Jesteruay. The pulpit was more than usually elaborated with flowers and plants In the morning Mr. Smith spoke on the subject of fellowship, saying that though men, or a set of men, in a moment of violent agitation might yet to withdraw their hand, the fellowship of the Divine Father could never be witdrawn, and that Lee Avenue Church, who being thrown out of the association, was thrown right into the arms of Christ, and was stronger than ever before, its field of usefulness enlarged, and its missionary purpose made a faced fact in the eyes of men.

## DR. PORTEOUS ON SCANDALS.

How an Eminent Divine would have the City of Brooklyn Known Herenfter.

Dr. George B. Porteous of the All Souls' rotestant Episcopal Church in Brooklyn, ast evening reached on "Scandals and Scandal Mongers in the preached on "Scandas and Scandal Mongers in the Churches." He said men will talk and women must, He almost believed that if God had not given speech to man, but had intensfeed his other senses to take its place, He would have benefited mankind. There were two kinds of people to avoid, viz.: They who have an explanation about everybody and everything and those who care about no explanation at all. Scandal mongers are divided into three classes: Women that are married, women that are married, women that are not married, and men, both single and married. In Scotiand the scandal mongers are widows, in England they are married women. In Ireliand they are spinsters. In this country, the preacher thought, they were pretty well distributed, but mostly men. Brooklyn had taken a preeminence in scandal. The English papers had insulated in a great deal of unpleasant criticism of the society of the City of Charcaes, and they have put Brooklyn ha a very sendadious position. "For God's sake, and for the sake of humanity," sad Dr. Por cous, "let this city be thereforth known as the City of Chartiles." There is in this country and Europe now an epidemical phase of scandal which is sure, to be short lived. It arises from a most superficially diseased boye for the bearing of the same of the country of charties."
